Both	Will you be sure to schedule the students so that all children from the same family are attending school on the same days and home the same days. This will be critical in order to enable families to reduce their childcare demand by having at least 2 days per week when all of their children are in school, and also to ensure that the older JSHS students are at home so, if necessary, they can help provide some help with the younger students childcare and online learning. I am assuming that you will be very careful when scheduling to assure that this is the case, but I wanted to verify it. Thank you.	Transportation supervisor and principals are working together to schedule siblings for the same days
