

Which school are you inquiring about?	Please submit your question here:	Response
APW Elementary School	I have read that each child will have temperatures taken before getting on the school bus, what happens if a child reads over the required temperature what does the person taking the temperature do? Also will buses be sanitized after every pick up/drop off? Children touch everything so if they swipe their hands down the seats will they be cleaned? Will the seats be cleaned after dropping off high school students so they are ready for elementary students?	If a student has a temperature which is over 100.0, he/she will not be allowed to board the bus. Parents need to ensure that someone is home to ensure that their child is supervised if they are not allowed on the bus. APW is following all CDC and Department of Health guidelines for cleaning and sanitizing.
APW Elementary School	Since the pandemic started my child was taught to sanitize or wash his hands after touching anything so my question is can he carry a little sanitizer that clips to his pants and/or book bag, can he bring disinfectant wipes?	Hand sanitizer is flammable, therefore, it should not be carried on the bus. We have hand sanitizer stations set up in hallways and each classroom has a supply of hand sanitizer and disinfectant.
Both	Will you be sure to schedule the students so that all children from the same family are attending school on the same days and home the same days. This will be critical in order to enable families to reduce their childcare demand by having at least 2 days per week when all of their children are in school, and also to ensure that the older JSHS students are at home when the elementary students are at home so, if necessary, they can help provide some help with the younger students childcare and online learning. I am assuming that you will be very careful when scheduling to assure that this is the case, but I wanted to verify it. Thank you.	Transportation supervisor and principals are working together to schedule siblings for the same days
Both	If there is a need for a hotspot at our residence, how are we to obtain one from the school?	We are working on forms that need to be sent home to request devices and hotspots
APW JSHS	My daughter is going into 7th grade and I understand that no plus classes are to be taught? If school ever goes back to normal, could she be put in a plus class then?	I would not anticipate that we would change students to advanced classes if we return to full time in-person learning. When/if this happens, we will make decisions based on where the class is in the curriculum along with what is most instructionally best for students.
APW Elementary School	If your child has an iPad will that work with the remote learning or are we going to need Chromebooks	It will depend on the grade level. If you are in need of a chromebook, we have a supply that we can loan out to families
Both	When will we get supply lists, and 9th grade schedules?	School supply lists are available on the school website -- go to schools, then forms. The deadline was yesterday for parents to choose 100% virtual learning or a hybrid method. Now that we have the list of students and their choices, we can begin the scheduling process. Schedules will be sent as soon as possible. We are working with lots of new information and processes -- thank you for being patient.
